News Release

16.06.2025

CKW Fiber Services AG becomes part of Axpo Systems AG

On 13 June 2025, Axpo Systems AG acquired 100% of the shares in CKW Fiber Services AG from CKW AG in an intra-group transaction. The acquisition will enable important synergies to be realised in the Axpo Group's connectivity services offering and services for customers to be expanded and further developed.

CKW Fiber Services AG is a leading operator of its own fibre optic networks and the largest provider of IT infrastructure and housing space in its own data centres and collocation centres in Central Switzerland. The company has pursued a growth strategy in recent years and will reach a milestone in its history with the commissioning of the Rotkreuz data centre at the end of 2022.

Axpo Systems AG specialises in the engineering, implementation and 24/7 operation of high-quality, crisis-proof communication solutions and is a leading integration partner for many system-relevant organisations in Switzerland. The company is headquartered in Lupfig and has around 140 employees at five locations throughout Switzerland.

The acquisition by Axpo Systems AG will enable further synergies to be realised in the Axpo Group's connectivity offering and the expansion and further development of services for customers. The location in Emmen / LU and the 15 jobs at CKW Fiber Services AG will be retained.

Axpo Systems AG CEO René Oester says: "Axpo Systems AG has extensive expertise in the areas of cyber security and telecommunications, as well as in the operation and maintenance of system solutions for system-relevant organisations. With CKW Fiber Services AG, we are expanding our range of services and will be able to respond even better to the needs of our customers on both sides."

For CKW CEO Martin Schwab, the benefits for customers are also paramount: "We will continue to guarantee our customers the high quality they have come to expect. By becoming part of Axpo Systems AG, CKW Fiber Services AG will be able to offer additional services and develop in the best possible way."

About Axpo

Axpo is driven by a single purpose – to enable a sustainable future through innovative energy solutions.
