## Axpo and HydroFleet partner on hydrogen producing and fueling stations in the US

**Axpo and HydroFleet, a provider of complete ecosystems for hydrogen fuel cell electric vehicles, have signed an energy supply agreement, it was announced today. Under the exclusive arrangement, Axpo will serve as the energy supplier for HydroFleet's hydrogen production and fueling stations across the US.**

Under the agreement, Axpo will also supply all the energy required to support the collaboration between HydroFleet and Hyundai in establishing a hydrogen production and refueling station at the HTWO Energy Savannah site in Pooler, Georgia. The site is designed to refuel a large fleet of Class 8 hydrogen fuel cell powered trucks which will be used in the construction of the Hyundai Metaplant America, Hyundai's first dedicated electric vehicle and battery manufacturing plant in the United States.

Axpo US Origination Director Seth Greengrass said: "We're proud to support HydroFleet's innovative hydrogen production facilities. Our expertise in energy supply and risk management will ensure a reliable and efficient delivery of feedstock, contributing to the success of this environmentally friendly initiative."

HydroFleet CEO Scott Moe commented: "Decarbonizing transportation is a complex challenge that demands cutting-edge innovation and a dependable energy partner. By harnessing hydrogen as a clean, high-performance energy source, we're unlocking new possibilities for zero-emission logistics. We're thrilled to collaborate with Axpo and look forward to the opportunities this partnership will unlock."

HydroFleet provides the complete ecosystem for fuel cell electric vehicles (FCEVs), including the development of hydrogen infrastructure and the production and supply of hydrogen to fuel them.

Axpo Group is a leading international energy company headquartered in Switzerland. In the US, Axpo focuses on the supply of energy and risk management solutions to consumers, producers, and retailers of electricity and natural gas.

### **About Axpo**

Axpo is driven by a single purpose – to enable a sustainable future through innovative energy solutions. Axpo is Switzerland's largest energy producer and an international leader in energy trading and the marketing of solar and wind power. Axpo combines the experience and expertise of more than 7,000 employees who are driven by a passion for innovation, collaboration and impactful change. Using cutting-edge technologies, Axpo innovates to meet the evolving needs of its customers in over 30 countries across Europe, North America and Asia.

### **About HydroFleet**

HydroFleet is at the forefront of the clean energy revolution, spearheading the transition to hydrogen-powered mobility and adoption of green technology. We equip industries and fleets with an evolving range of streamlined solutions that maximize operational efficiency and profitability. HydroFleet's versatile hydrogen solutions fuel an increasing range of hydrogen applications, making the transition to a sustainable fleet effortless. HydroFleet, Power to make a difference®.
