## Linth-Limmern Power Stations: Slightly higher electricity output

**The shareholders of Kraftwerke Linth-Limmern AG (KLL) approved the report and annual accounts for the 2024/25 financial year at their Annual General Meeting. KLL continued to make a substantial contribution to Switzerland's electricity supply during the past reporting period.**

The four KLL power stations – Muttsee, Limmern, Hintersand and Tierfed – produced around 1.7 billion kilowatt hours in the 2024/25 financial year. That is equivalent to the annual electricity consumption of around 435,000 four-person households. This represents a slight increase in electricity production compared with the previous year (financial year 2023/24: 1.6 billion kilowatt-hours).

The Annual General Meeting re-elected the members of the Board of Directors: Kaspar Becker, Jörg Huwyler (Chairman), Viktor Lir, Michael Schärli, Thomas Tschudi and Hans-Peter Zehnder (Vice-Chairman). The shareholders approved the payment of a dividend of 1.5 per cent (previous year: 1.5 per cent) of the share capital of CHF 350 million.

Kraftwerke Linth-Limmern AG is a joint venture between Axpo and the Canton of Glarus. Axpo holds 85 per cent of the shares, the Canton of Glarus 15 per cent.

### About Axpo

Axpo is driven by a single purpose – to enable a sustainable future through innovative energy solutions. Axpo is Switzerland's largest energy producer and an international leader in energy trading and the marketing of solar and wind power. Axpo combines the experience and expertise of about 7,500 employees who are driven by a passion for innovation, collaboration and impactful change. Using cutting-edge technologies, Axpo innovates to meet the evolving needs of its customers in more than 30 countries across Europe, North America and Asia.
