Axpo signs agreement with Fyrfasen Energi & Härjeåns Kraft

Axpo Sverige AB has entered a wide-ranging agreement with Fyrfasen Energi and the Härjeåns group. The agreement, which came into effect on 1st November 2022, covers balance responsibility, physical supply and financial hedging for Fyrfasen Energi's annual 900 GWh electricity sales and 200 GWh electricity production.

Axpo Sverige Senior Originator Cecilia Bergman said: "We are really pleased that this important partnership extends our geographical coverage to the north of Sweden. The electricity retailer segment is a core part of our business, offering effective solutions for risk management and optimisation of electricity trading and production."

Axpo is a leading player in the Nordic energy market, providing trading and balance responsibility services to electricity retailers, wind power producers and industry.

Härjeåns group CEO Cecilia Norberg said: "We chose to cooperate with Axpo because their comprehensive offer and extensive capabilities fully correspond with our needs and those of our customers."
